Experience

Supply Chain Supervisor

Nov 2023 - Current
Hassan's Optician Co.

- Coordinate and monitor end-to-end supply chain activities to ensure on-time delivery of goods and materials.
- Handled retail and wholesale sales operations, ensuring timely order processing and customer satisfaction
- Collaborate with suppliers, manufacturers, and logistics partners to maintain efficient inventory levels and minimize disruptions.
- Manage purchase orders, shipping schedules, and delivery timelines to meet operational and customer requirements.
- Track and analyze inventory data, identifying opportunities to optimize stock levels and reduce excess
- Support demand planning and forecasting by providing accurate and timely supply chain information.
- Maintain and update ERP or supply chain management systems with accurate product, order, and shipping details.
- Assist in resolving supply and logistics issues, including delays, shortages, and quality concerns.
- Ensure compliance with company policies, safety regulations, and industry standards throughout the supply chain
- Prepare regular reports and performance metrics to support decision-making and continuous process improvements.
- Liaise with internal departments such as procurement, production, sales, and finance to streamline workflows and improve overall efficiency.

Automotive Service Advisor

Jan 2018 - May 2022
MARUTI SUZUKI

- Greet customers in a professional manner, assess their service needs, and provide accurate repair and maintenance recommendations.
- Act as the main point of contact between customers and the service department, ensuring clear and transparent communication.
- Prepare detailed service estimates, explain repair procedures, and obtain customer approvals prior to work being carried out.
- Schedule service appointments, manage work orders, and coordinate with technicians to ensure timely completion of repairs.
- Follow up with customers on service progress, delays, or additional repair needs to ensure satisfaction and trust.
- Conduct final quality checks and ensure all service work meets company and manufacturer standards.
- Stay updated on new automotive technologies, service procedures, and warranty policies.
