PROFESSIONAL EXPERIENCE

M2R Group Kuwait

Jul 2023 – Present

Warehouse Manager

- Led warehouse operations across 3 distribution branches, overseeing inventory flow, storage optimization, and on-time dispatch for all shipments.
- Managed and trained a 10-member warehouse team, ensuring seamless coordination, productivity improvement, and adherence to company SOP and safety protocols.
- Planned and executed end-to-end inventory management processes—receiving, picking, packing, and dispatching—maintaining 99% stock accuracy.
- Collaborated with the Chief Finance Officer to develop efficient warehouse space utilization plans and reduce logistics costs through improved layout and control systems.
- Implemented systematic task delegation, process tracking, and performance monitoring, resulting in faster order fulfillment and improved inter-branch distribution efficiency.

Kuwait Oil Company, Kuwait

Dec 2019 – Jul 2023

Line Warehouse Manager

- Managed all mission-critical warehousing operations for a 10,000-unit secure meter inventory, utilizing SAP System expertise to maintain real-time accuracy and optimize transaction throughput.
- Established and enforced a compliant and stable distribution network, ensuring strict adherence to GSA (Government Services Administration) standards and maximizing operational integrity across all departmental deliveries.
- Reported directly to the Data Engineer, leveraging warehouse metrics and SAP data to inform inventory forecasting, optimize slotting, and drive measurable efficiency gains in the spare parts supply chain.

- Directed the handling and management of high-value Spare Parts logistics, creating robust protocols for compliant storage, distribution, and auditing processes to guarantee asset availability and regulatory adherence.

Taiba Hospital, Kuwait

Aug 2017 – Oct 2018

Head of Logistics

- Directed and controlled all end-to-end logistics operations (Planning, Organizing, Leading, Controlling, Delegating), reporting directly to the CEO and aligning departmental strategy with organizational goals.
- Spearheaded operational efficiency by optimizing space utilization and implementing advanced Task Management protocols, resulting in measurable improvements in storage density and fulfillment speed.
- Managed and developed a diverse, high-performing team of 23 logistics professionals, including 2 Supervisors, 4 Drivers, 3 Data Entry specialists, 4 Inventory/Receiving staff, 8 Pickers, and 2 Cleaners.
- Oversaw comprehensive Team Management and training for all warehouse roles, driving accountability and boosting productivity across inventory control, receiving, and order fulfillment functions.
